Reminder from the Lakes Committee:

To all Riparian's (cabin/homeowners with lake access) now is the best time of year to REMOVE leaves and debris from the lakes edge. The weather is good, temperatures in the 50's with sunshine. The lake water will be colder in the spring so now is the warmest time for us. Please take an hour or more to help clean the lake edge which will help reduce some of the Blue/Green algae next summer.

It's bad for the health of lake to have all that debris in the water all winter. It's using up the oxygen needed for native plants. If you have concerns about algae in the summer now is the time for action. If each us does an hour we could have 100+ man hours that would go a long way to a healthier quality lake.

If you need help getting started or don't know how to help or have questions about quality of the lake, please reach out to me. We also have equipment that can be borrowed to make the job easier.

Lakes Chairman,

Doug Collins
